

September 3, 2008

Dear Parents:

This has been an exciting week. We have worked and played together so respectfully. The students are beginning to understand what is expected of them, how to walk in line, and how to behave in Mass and other places.

In Math, We have studied the number “zero.” We added zero to numbers using our counting bears. In reading, we read our little books, studied our word wall, and learned the letters “G” and “H,” and the sounds associated with each letter. In Social Studies, we began our unit on Land Features. In Religion, Mrs. Martinez continued her lessons on “Creation.”

Every Friday we will have “Show and Tell.” The boys and girls may bring something they would like to show and tell about. Please do not let them bring important items that could get lost or torn.

Thank you, parents, for the nutritious snacks that you sent this week. The children enjoyed each snack.

Remember:

Friday, September 5: Students will be dropped off at the Elementary campus (20 East Beauregard.) The telephone number is 655-3325.
EARLY DISMISSAL
